

Clean Issue and Practice Jerseys

During practice we like to have the ability to drill or scrimmage using three colors for teams: **Blue, Gold, and Gray**

Players **must** get Clean Issue gray t-shirts. The cost of this service is **\$7** per player. Once all the money is collected for Clean Issue, the coaches will go to the laundry room downstairs near the entrance to the boys' locker room to get the number of shirts needed for his/her team. Once it is given to the player, she must wear it daily. Each day **RIGHT AFTER SCHOOL no matter what time she practices**, she will take her dirty shirt down to the laundry room to exchange it for a clean one. This is her **responsibility**. There is no Clean Issue service for days when school is not in session, so it is the player's responsibility to wash it and wear it to practice on those days.

Players **must** have a practice jersey for the next four years as well. Some may already have one. If not, they can be purchased from us. **New jerseys** will cost **\$25**. The need for a jersey usually only applies to the incoming freshmen. However, whoever needs one certainly can get one. Once the player has one, she should hang on to it for the remainder of her career here, unless she needs a new one down the road due to loss or damage. We use these jerseys not only for practice but for our summer leagues and tournaments as well. The player **must** wear this jersey to practice daily.

Coaches: Keep a list somewhere with the names of the players and their practice jersey numbers for future reference.

(Fill out the bottom form; tear it off; keep the top portion for your records)

Player's name _____

Money enclosed for: (Check those that apply; make checks payable to Cary-Grove High School)

Clean Issue (\$7) _____

Practice Jersey (\$25) _____
